
Professional Certificate in Mental Health Assessment and Diagnosis (Intermediate)

Why the Global Market is Paying a Premium for This Skill Set

Source: McKinsey Global Institute, World Economic Forum, OECD (2026)

Trend Driver | Why It Matters | Global Source

Rise of workplace mental health mandates | Employers are legally obligated to assess employee well-being, creating urgent demand for certified professionals | World Economic Forum Future of Jobs Report
AI-driven diagnostic tools expanding access | Intermediate-level certifications bridge the gap between clinical expertise and scalable digital solutions | McKinsey Global Institute
Shortage of licensed assessors in emerging economies | India and Southeast Asia face a 40% deficit in qualified mental health diagnosticians by 2026 | OECD Skills Outlook
